

Franck Malige

PhD in Astronomy, mathematics teacher, attached to lycée Victor Hugo of Marseille

Member of LIS laboratory, DYNI team, university of Toulon

franck.malige@lis-lab.fr

Marseilles,
July 2022

Curriculum vitae

Studies

- 1994 - 1998 Ecole Normale Supérieure de Cachan, département of Mathematics. Master 1 in mathematics. Master 2 "Astronomie fondamentale", Observatoire de Paris.
- 1997 Agrégation in Mathematics
- 1998 - 2001 PhD in astronomy 'Stabilité effective des systèmes planétaires', at the "Bureau des longitudes/IMCCE", directors : Dr Jacques Laskar and Dr Philippe Robutel ([4, 10])
- 2002 : Post doctoral position in celestial mechanics in Universidad de Lisboa. director : Dr Ana Nunes.

Professional positions

- Since 2006 : Permanent teaching position (professeur agrégé in mathematics) in Victor Hugo High School in Marseilles.
- Since 2018 : Member of LIS laboratory, DYNI team.

Professional projects

- 2013 : Project HERACLES in Nouvelle Calédonie : acoustical follow up of humpback whales in the Lagon Sud with Hervé Glotin and Pascale Giraudet (2013) [1, 16].
- 2013-2017 : Long-term monitoring of sperm whales around the Port-Cros National Parc (France) with the DYNI team of Toulon university[3].
- 2016-2019 Three years sabbatical for a professional research project in collaboration with Toulon university and Stic Am Sud ($n^{\circ}17 - STIC - 01$) : Participation in the project linked to the PhD of Julie Patris "Contributions en méthodes pour le suivi de mysticètes par acoustique passive" [12, 15]. Development of new techniques based on boundary elements methods to compute the sound propagation of cetaceans [6]. Mathematical modelisation and signal processing analysis of long term trend of Southeast Pacific blue whales songs [8, 13, 11]. Acoustical analysis of underwater explosions in northern Chile [7]. Analysis of patterns in humpback whales songs by means of recurrence plots [5].
- 2019 : Sphyrna-Odyssey mission with Toulon university (<https://www.sphyrna-odyssey.com/>) [2].
- 2021 : Scientific project in France and Chile : acoustic study of coastal dolphins in Chilean fjords, theoretical research on long-term evolution of blue whale's songs [14, 17, 9].
- Organisation of LAMLA II conference (Listening to Aquatic Mammals in Latin America), Valparaiso, november 2016 (<http://www.lamla2016.com/lamla-valparaiso-2016>), LAMLA III workshop in Lima in november 2018 and LAMLA IV in Salvador de Bahia, september 2022.
